PROFILE

I am a web developer who enjoys turning ideas into functional and useful web applications. My focus is on creating user experiences that are simple, engaging, and easy to use.

I recently interning at an NGO, Yayasan Madani Berkelanjutan, as a Full Stack Web Developer Intern. In this role, I contribute to redesigning the website and implementing new features to enhance its functionality and user experience.

I am constantly learning and evolving as a developer, exploring new technologies and methodologies to improve my skills. My goal is to build web solutions that not only meet functional requirements but also provide a meaningful impact on users. I look forward to collaborating on projects that challenge me and contribute to creating better digital experiences.
