Summary

Informatics Engineering graduate and a Front End Web Developer with prior experience as a Full Stack Web Developer. I have hands-on experience with React.js and am always eager to adapt to new tools and frameworks that can bring value to a project. In my professional experience, I've contributed to web development projects focused on optimizing website performance and ensuring responsive design.

Experience

August 2024 – January 2025

- **Madani Berkelanjutan**

  Full Stack Web Developer – Internship, Hybrid

  Developed and rebuilt a web application to support organizational work processes effectively.

  o Rebuilt the organization's website, transitioning from Laravel to React JS.

  o Improved website performance score from 49 to 84, enhancing user experience and page load speed.

  o Enhanced website accessibility score from 84 to 91, ensuring compliance with web accessibility standards.

  o Optimized and improved existing features to ensure more intuitive user flow.

  o Integrated farmer data with Mapbox for better geospatial visualization.

  o Developed a custom HRIS (Human Resource Information System) web application, replacing manual processes (e.g., docs, Excel).

April 2024 – May 2024

- **LSP Geospasial**

  Front End Web Developer – Freelance, Remote

  Designed and developed user interfaces for web applications.

  o Created the user interface for an initial assessment application.

  o Integrated REST APIs provided by the backend development.

Education

September 2020 – November 2024

- **Sekolah Tinggi Ilmu Komputer Cipta Karya Informatika**

  Bachelor of Computer Science in Informatics Engineering

  GPA: 3.42.

July 2017 – May 2020

- **SMK Negeri 24 Jakarta**

  Vocational High School of Software Engineering

Certification

March 2023

- **Dicoding Indonesia**

  Menjadi Front-End Web Developer Expert

September 2021

- **freeCodeCamp**

  Responsive Web Design

Skills
